APPENDIX E

Admissions Department Side Letter

The parties agree: (1) to eliminate the current numerical standards for Admissions Department representatives from the clerical collective bargaining agreement; (2) to apply the contractual just cause standard in determining whether discharge, or other discipline of an admissions representative is warranted; (3) to permit telephone monitoring of the job performance of the admissions representatives for training purposes, and to ensure regulatory compliance, provided that the results of such monitoring shall not be used for disciplinary purposes unless monitoring uncovers a substantial breach of compliance guidelines or regulations; (4) to expunge disciplinary warnings issued during the last two years from the personnel files of the admissions representatives; (5) to take all necessary steps to terminate/withdraw all pending Admissions Department grievances and arbitrations, with the exception of the grievance filed on behalf of Lance Wald; and (6) to appoint Martin Scheinman as contract arbitrator to hear and adjudicate any case in which the Union alleges that: the Company either disciplined an admissions representative without just cause; or committed some other contract violation involving the Admissions Department.

Monitoring for training purposes will be performed for at least the first year of the collective bargaining agreement by a manager or outside consultant who is not currently an employee of the Admissions Department, and who will not report to Admissions Department management. Such monitoring will be limited to employees with one year of service or less, and to employees whose statistical performance (based on conversion rates) is in the bottom half of the Admissions Department at the time of the monitoring.

TCI shall prepare a compliance manual, and provide compliance training to all admissions representatives. Compliance monitoring will not be performed by Admissions Department managers. It will be performed either by counsel, an internal compliance manager, or by an outside third party. Compliance monitoring will be random, except in cases where there is reasonable suspicion concerning a particular employee or there is an allegation concerning an employee that is reasonably believed to be credible. The parties agree that the goal of compliance monitoring is to improve performance. Accordingly, except in cases where monitoring uncovers a substantial breach of compliance guidelines or regulations, or reveals conduct that might have to be reported to the US Department of Education, or the New York State Education Department, the following guideline should be followed:

If the monitor discovers an instance of non-compliance, the Union and the employee will be notified, and the employee will be given further training before any disciplinary action can be taken.

The parties agree that nothing in the collective bargaining agreement or this side letter is intended to limit the Company's management rights set forth in Article 5 of the collective bargaining agreement, including, but not limited to, the right to: assign job duties and to set departmental numerical and non-numerical objectives each semester. This provision shall also be subject to the just cause provision of the collective bargaining agreement.

Mr

As long as the departmental numerical objectives set for the Admissions Department rely on conversion rates there shall be no requirement that admissions representatives all be given the same or substantially the same number of leads or any specific kind of leads (e.g., internet or non-internet). However, this shall not modify management's obligation to distribute leads fairly, or modify the just cause standard for discipline.

In any arbitration proceeding contesting the discharge or other discipline of an admissions representative neither party will cite the fact that the parties agreed to delete Admissions Department numerical standards or other language from prior collective bargaining agreements or made and/or withdrew proposals during the course of negotiations, and will rely on the remaining provisions of the collective bargaining agreement.

Each semester TCI shall provide one day of admissions skills training to be provided by an outside contractor.

TCl shall provide a weekly CampusVue conversion report and a weekly CampusVue lead report. The conversion report shall contain conversion rates by ATB, internet and non-ATB/non-internet registrations. The representative lead report will identify leads by previous education (college transfer, high school-foreign, high school-domestic, GED and ATB), along with a lead date.
